## KAUA'I – THE ISLAND OF DISCOVERY

Kaua'i is always dressed for visitors in its finest greenery. Flowers and fruit are everywhere, enhanced by a backdrop of spectacular mountain scenery and surrounded by a lei of beaches that seems to reach out to embrace the visitor.

Kaua'i's waterfalls are legendary. The Na Pali Coast may be the most memorable view in the hearts of her visitors.

## ASTON ISLANDER ON THE BEACH

The sounds of the ocean are a lullaby that will rock you to sleep every night at this romantic, low-rise beachfront hotel.

Both contemporary and nostalgic, the grounds feature thatched huts, hand-carved furnishings and plantation-style decor, with conveniences such as free WiFi in the lobby. The pool area features outdoor barbecues, a generous swimming pool, jet spa and a poolside bar.

The accommodations feature hotel rooms and one-bedroom suites with oceanfront, ocean and exotic tropical garden views.

Every room and suite has a private lanai, air conditioning, mini-refrigerator, a wet bar, coffee maker, microwave, color cable TV and free high-speed Internet access.

Nearby you'll find the Coconut Marketplace with more than 60 boutiques and restaurants. And just down the road, you'll find the snorkeling lagoon at Lydgate Park. It's a protected swimming spot for small children and a sheltered lagoon where even the novice snorkeler can enjoy the antics of Kaua'i's colorful tropical fish.

If you're looking for an active resort to have fun with your special someone or your family, we think Aston Islander on the Beach may be just the place that you're looking for.

**E komo mai! Come visit us!**

*The Aston Islander on the Beach features thatched huts and plantation-style décor throughout the grounds and in all common areas.*

*It's a wonderful, active and fun resort. A great escape for you and that special someone. Or for you and your family.*

"The Garden Isle" is one of America's great treasures. Beautiful stretches of white sand beach and extravagant tropical greenery frame a lush sanctuary that is the least developed of the four major Hawaiian Islands, and one of the most beautiful spots on earth.
