## THE REAL HAWAII

There are a hundred ways to enjoy Waikiki and the Island of O'ahu, but one thing is for sure, you won't find "the real Hawai'i" sitting in your hotel room.

Grab a car. Catch a tour bus. Get out on the road and explore. The real Hawai'i is waiting just around the next turn in the road, in the next cove or up the next trail. The Hawai'i you've dreamed of is out there... just as you imagined it.

## ASTON PACIFIC MONARCH

Just a block from the sand and surf of Waikiki Beach, this condominium resort offers you a practical way to stay and play in Hawai'i.

There is a fabulous, panoramic view from the rooftop recreation deck. You will feel on top of the world as you swim, sunbathe or relax in the sauna thirty stories above the city.

There are dozens of dining, sports and entertainment options within a two-block radius.

The Aston Pacific Monarch offers studios and one-bedroom suites that are twice the size of a beachfront hotel room at a greater value.

Every unit offers thoughtful touches like a fully equipped kitchenette, high-speed Internet access, daily maid service and a private lanai.

We think it's the perfect, practical home base from which to discover all that our Island has to offer.
